## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer L. Buss (57,321) on 12/13/2007.

### **IN THE CLAIMS**

Claim 12. (Currently Amended) The catheter assembly of claim 1 wherein a first portion of the coating and the first portion of the end region of the distal outer tubular member are bonded together in a continuous layer.

Claim 16. (Cancelled)

### ***Allowable Subject Matter***

Claims 1-8, 12-15 and 17-27 are allowed over the prior art of record as amended in the reply filed 8/03/2007.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of catheter assembly that is constructed through the engagement of a hollow proximal tubular member coated with a polymeric material, to a distal outer tubular member; with each member defining a continuous

lumen there through with the distal member partially disposed within an inner member which is engaged to a portion of the proximal tubular member.

The closest prior art of record is Keith (USPN 5,702,439), however these references do not disclose the device as claimed by Applicant or described above.

Regarding claims 1 and 17, the closest prior art of record fails to teach among all the limitations or render obvious the multiple engagement regions in which the first engagement region comprises the first portion of the end region of the distal outer tubular member which radially overlaps the first portion of the end region of the proximal tubular member and a first portion of the coating and the first portion of the end region of the distal outer tubular member being bonded together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher D. Koharski whose telephone number is 571-272-7230. The examiner can normally be reached on 7:30am to 4:00pm EST.
